

I am a strong supporter of K-love radio in the greater Cincinnati area and implore you not to replace it with an LPFM station. I know that my life has been touched by its programming and local presence in our community as have others. It is a daily source of strength and a reminder of our duty as followers of God to spread his love. K-love's local involvement with speakers, events, outreach programs and more continue to open doors to Christ that would not otherwise be available to people in this area. Please do not take K-love from us. Thank you.
